Maybe even better than free.

Files can be downloaded from any computer from our high speed servers. You don't need any special software installed to be able to download your files. You can give this download link to your friends by mail or instant messenger. There are no restrictions on the number of times a file can be downloaded. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On theother hand, using file can actually save you money. So try our free and simple filehosting service now. No account or credit card is required to get started. Anyfile in any format can be uploaded and downloaded for free. The cost of that data transfer is covered by your internet service or the data plan on your phone.filehosting provides an easy possibility for you to send large files to your friends. You can upload any type of file (movies, music, documents, images, zip filesand more). This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Alternatively you can choose to share your download linkson blogs, forums and social networking sites. Our service is completely free for everyone. Unfortunately, we can't make that part free. Simply upload your fileand share the link. File is free to use with no gotchas and no hidden fees. It is also allowed to link to the download page from websites and communities. Justupload the file you want to share with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. When you use file, you avoid storing the file you're sending in your cloud storage or mailserver. Keep your files private, or send your download links only to friends or family. Your wallet will be none-the-lighter! Just so we're all 100% clear here:When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. We have no filesize limit. You decide who you want to share your files with.
