Maybe even better than free.

Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. No account or credit card is required to get started. You don't need any special software installed to be able to download your files. You can give this download link to your friends by mail or instant messenger. It is also allowed to link to the download page from websites and communities. Alternatively you can choose to share your downloadlinks on blogs, forums and social networking sites. You decide who you want to share your files with. The cost of that data transfer is covered by your internetservice or the data plan on your phone.
