Maybe even better than free.

Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone andour servers, then from our servers to your friends device. Files can be downloaded from any computer from our high speed servers. No account or credit card is required to get started. Just upload the file you want to share with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. filehosting provides an easy possibility for you to send large files to your friends. So try our free and simple filehosting service now. File is free to use with no gotchas and nohidden fees. The cost of that data transfer is covered by your internet service or the data plan on your phone. There are no restrictions on the number of times afile can be downloaded. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You don't need any special softwareinstalled to be able to download your files. Keep your files private, or send your download links only to friends or family. You don't need any special softwareinstalled to be able to download your files. Keep your get free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. It is also allowed to link to the download page from websites and communities. Alternatively you can choose to share your download links on blogs, forums and social networking sites. If only we could, we surely would! On the other hand, using file can actually save you money. Unfortunately, we can'tmake that part free. You can upload any type of file (movies, music, documents, images, zip files and more). You can give this download link to your friends bymail or instant messenger.
